COME IN is part of a series of art events held twice a year, spring and autumn, at the VIENNA INTERNATIONAL APARTMENT on Linke Wienzeile 4/1/7. The space is a private apartment located in a building which houses both commercial and living spaces.

VIENNA INTERNATIONAL APARTMENT provides a new platform for the arts within the Viennese art scene, bringing together artist from different cultures and backgrounds. As an "independent space" it addresses issues concerning limits and boundaries within and without public and private spaces. The choice of the exhibition space as such addresses the private-public concept by redefining the private nature of the habitat making it public: In the contemporary reality, spaces have lost their specificity and gained multiple simultaneous meanings; sometimes the various uses of spaces may even be contradictory.

COME IN brings together six artists from Austria, Great Britain, Ireland, Russia and Sweden. The media explored by the artists include drawing, painting, photography, installation, object, video and performance. For more information on each artist, please visit the Web site www.vienna-international-apartment.net. The exhibition is curated by the Portuguese artist Sílvia Salgado.
